

La Scuola Ascolta

To improve the reception and integration system for children and families at IC CARMINE in Viterbo. (a.s. 2024/25)

At the Istituto Comprensivo Carmine (Carmine Comprehensive Institute), recognition of differences and equality of opportunity are the founding principles of educational action; they are accompanied by respect for each culture and its valorisation in the process of building new identities.

The intercultural school is a place of exchange with the outside, a space for building the identity of all pupils, promoting listening, dialogue and understanding in the deepest sense of the term.
